PROFESSIONAL EXPERIENCES:

Full Stack Developer:

Aug 2022 – Aug 2025

NestedPie

NestedPie is a product development and consulting company specializing in custom web applications, mobile apps, and SaaS solutions. With a focus on user-centered design and scalable architecture, the team helps startups and businesses turn complex ideas into functional, secure, and high-performing digital products.

Responsibilities:

- Developed responsive internal and admin dashboards using React.js, Next.js, and Tailwind CSS Built scalable backend services and REST APIs with Node.js (Express), Nest.js, and Firebase Functions, improving query performance and reducing response times
- Collaborated closely with Flutter developers to design and implement APIs, ensuring smooth integration between web and mobile platforms
- Deployed full-stack solutions on AWS EC2, Digital Ocean, and Azure using Docker and CI/CD pipelines
- Integrated third-party services like Twilio, SendGrid, Firebase Auth, and Stripe to enable communication and payment functionalities
- Authored onboarding and technical documentation to streamline developer handoffs
- Worked within agile teams alongside designers, mobile app developers, and business stakeholders to deliver tailored features meeting client requirements

Full Stack Intern:

Dec 2021 – Feb 2022

Async Innovations

Async Innovations is a tech company focused on building web-based tools for video editing and digital marketing automation.

Responsibilities:

- Contributed primarily to frontend development using React (class-based components)
- Built UI components for a SaaS marketing platform integrating email and video campaign tools
- Collaborated with backend developers using Node.js (v16+) to ensure seamless API integration and data flow
- Implemented responsive layouts and user-friendly interfaces based on provided mockups
- Participated in internal testing, feedback cycles, and Git-based version control workflows

EDUCATION:

DEGREE/CERTIFICATION	UNIVERSITY/INSTITUTE	YEAR OF PASSING
Introduction to Programming	Microsoft Technology Associate	2021
